

Ginger Lily Weddings

At Ginger Lily Florists we love weddings and pride ourselves on being able to create stunning designs for your special day, whatever your individual style or budget may be. We can design bridal bouquets and posies, buttonholes and corsages, beautiful arrangements for the church and reception, pedestals and cake decorations, to name a few.

From the care we take with planning your wedding and our experience understanding each wedding is unique, we encourage you to arrange a complementary Personal Wedding Consultation with us. It is all part of the service! This allows us to discuss your ideas in more depth and show you work from our extensive portfolio in our inspiration boards. Please send us a link to your Pinterest account and/or send us any photos you have to help us create your perfect floral design.

We appreciate you may not live locally or in the Brighton area, in which case we can correspond by phone and email to give you the very best flowers for your day. In arranging a Personal Wedding Consultation, we can conduct this over the phone as well. We are more than happy to work in with your schedule and what is needed to prepare the flowers for your special day.
